## Why companies hire CLC graduates

In-depth, technical training • Interpersonal and analytical skills • Willing to learn and adapt to change

CLC's solid reputation for career education enables its graduates to be highly successful in gaining employment around the country. While securing employment is the responsibility of each individual graduate, CLC provides an invaluable service with placement assistance for all graduates of a degree or diploma program. Students participate in a variety of career planning activities involving guest speakers, workshops, job fairs, or formal classes on topics which include letter-writing, job-seeking (and keeping) and interviewing skills. As students near graduation, the Academic Center for Enrichment provides personal assistance in the development of a professional resume and cover letter. CLC continues to provide job leads and assistance as needed once a student graduates.
