Central Lakes College COVID-19 Back-to-Campus Preparedness Plan

Central Lakes College is committed to providing a safe and healthy environment for our students, faculty, staff, and members of our campus community. To ensure that, we have developed this Back-to-Campus Preparedness Plan in response to the COVID-19 pandemic utilizing guidance offered in Emergency Executive Order 20-40, *Allowing Workers in Certain Non-Critical Sectors to Return to Safe Workplaces*, April 23, 2020. We are all responsible for implementing this plan. Our goal is to mitigate the potential for transmission of COVID-19 in our campus(es) and that requires full cooperation among students, faculty, staff and members of our campus community. Only through a cooperative effort, can we establish and maintain the safety and health of our campuses.

Campus leaders, supervisors, employees, and students are responsible for implementing and complying with all aspects of this Plan. We have involved our employees in this process by involving CLC’s Pandemic Team, building from individual department plans for instructional alternate delivery plans, and departmental/employee tele-work plans. Regular Town-Hall Forums, email communication, and feedback from CLC employees and students have also informed this plan. Central Lakes College leaders and supervisors have our full support in enforcing the provisions of this policy.

The initial policy is if you can continue to effectively tele-commute/work remotely then that is the best course of action.

We are serious about safety and health and keeping our student and employees safe. Your involvement is essential in developing and implementing a successful Campus COVID-19 Preparedness Plan. Our Preparedness Plan follows Centers for Disease Control and Prevention (CDC) and Minnesota Department of Health (MDH) guidelines and federal OSHA standards related to COVID-19 and addresses:

- Hygiene and respiratory etiquette;
- Engineering and administrative controls for social distancing;
- Housekeeping – cleaning, disinfecting and decontamination;
- Prompt identification and isolation of sick persons;
- Communications and training that will be provided to managers and workers; and
- Management and supervision necessary to ensure effective implementation of the plan.
Screening and policies for those exhibiting signs and symptoms of COVID-19

Employees and students have been informed of and encouraged to self-monitor for signs and symptoms of COVID-19. The following policies and procedures are being implemented to assess workers’ health status prior to entering the campus and for employees and students to report when they are sick or experiencing symptoms.

The following information has been, and will continue to be shared with employees and students, prior to coming on campus.

Pre-activity communication includes:

- Your health and safety, and that of all of our students, faculty, staff and others in our campus community, is important to us. This is a shared responsibility.
- Stay at home if you are sick or not feeling well,
  - Contact your instructor, faculty, or supervisor to let them know and get any specific instructions.
  - Contact a healthcare provider should symptoms persist or worsen.
- Wash your hands frequently with soap and water for at least 20 seconds.
  - If soap and water are not available, use a hand sanitizer that contains at least 60% alcohol.
- Cover your coughs and sneezes.
- Practice social distancing by keeping at least 6 feet of space between people.
- Wear a cloth face covering in settings where social distancing cannot be maintained.
- Monitor your health paying particular attention to the presence of a temperature or fever, new or worsening cough, and new or worsening shortness of breath. If you are not well in anyway, stay home.
- Monitor your own health, speak up and act to the wellbeing of yourself and others, and take ethical responsibility for yourself, friends, family, and our communities.

Each day, prior to beginning in-person, face-to-face activities instructors, faculty, or supervisors are asked to screen for symptoms consistent with COVID-19:

- Ask if the student/staff has ANY of the following symptoms:
  1. COUGH (New or Worsening): YES / NO
  2. SHORTNESS of BREATH (New or Worsening): YES / NO
  3. OR, TWO (2) or more of the following symptoms: YES/NO
     - TEMPERATURE/FEVER of 100.4 degrees Fahrenheit or above
     - Chills
     - Headache
     - Sore Throat
     - Muscle pain,
     - Loss of taste or smell
- If ALL three of the ABOVE are NO, the individual can enter the program space. The individual must proceed to wash their hands before having any contact with other students or other staff/instructors.
• If ANY of the ABOVE are YES, the individual WILL NOT BE ALLOWED to enter or nor participate and will be asked to return home. They should then stay home until:
  o They have had no fever for at least 72 hours (without the use of fever reducing medications) AND
  o Other symptoms have improved (for example, when the cough or shortness of breath has improved) AND
  o At least 10 days have passed since their symptoms first appeared

If an individual becomes sick during the day, ask them to go home.

NOTE: It is also important to remind students and staff that if a person feels sick for any other reason they should stay home until those symptoms subside. This is consistent with general recommendations of staying home when sick.

Follow-Up: At the conclusion of each session of in-person, face-to-face activities instructors, faculty, or supervisors are asked to:

• Wipe down any surfaces they may have touched
• Wash their hands with soap and water for at least 20 seconds before leaving the area or building.
• Monitor their health, report any changes particularly a temperature or fever, new or worsening cough, and new or worsening shortness of breath to their faculty or supervisor, and seek medical attention as symptoms warrant.
• Wash cloth face covering often. This is especially important after any tactical training exercises that involve direct intense contact with other students or faculty.

Employees must work with their supervisor and submit the COVID pre-approved leave form to Kristi Lane in Human Resources for pre-approval. Once approved, HR will communicate with employee and supervisor on how to request the leave and which code to use.

Link to Paid COVID-19 Leave Policy

Link to Paid COVID-19 Leave Request Form

Employees will follow the normal process of informing supervisors if they are sick or experiencing symptoms while at home or work. Students should inform their faculty members, who will then report to Matt Krueger and Joy Larson, and follow up with the appropriate agencies as necessary.

Central Lakes College through Minnesota State and Minnesota Management and Budget has implemented leave policies that promote workers staying at home when they are sick, when household members are sick, or when required by a health care provider to isolate or quarantine themselves or a member of their household. Sick leave per applicable collective bargaining agreement/plan, the Family Medical Leave Act (FMLA) and COVID-19 Leave Link to Paid COVID-19 Leave Policy. Accommodations for employees with underlying medical conditions or who have household members with underlying health conditions have been implemented. Link to Paid COVID-19 Leave Policy
Accommodations for employees with underlying medical conditions or who have household members with underlying health conditions have been implemented, by working with the employee’s supervisor and Human Resources.

The policy of Central Lakes College is to follow Minnesota Department of Health and local health department guidance and direction on informing workers if they have been exposed to a person with COVID-19 on campus and requiring them to quarantine for the required amount of time.

Central Lakes College has also implemented a policy for informing employees if they have been exposed to a person with COVID-19 at their workplace and requiring them to quarantine for the required amount of time.

Upon learning of the first report of a first person (a student, staff/faculty member who is presumed COVID-19 positive) exposure, Central Lakes College will send out an email to employees/students using the modified Minnesota State templates.

- The notification will go out (via email) whether we learn of the exposure through the Minnesota Department of Health or if the exposure is self-reported. A notification will go out when we learn of a presumptive positive.
- In accordance with HIPPA requirements, the individual will not be named, and the privacy of the individual will be protected.
- The notification will be made if the person has been physically present or had contact with college personnel on either campus within the prior 14 days. (For example, if the person has not been on campus or had contact with CLC employees/faculty/students since the start of spring break, no notification will be made).
- Notification will indicate on which campus the individual had contact with college personnel, including notification to any partners who may have been exposed.
- CLC will only make additional notifications to personnel of additional cases in specific, necessary situations when a large portion of personnel may have been exposed on a case by case basis.
- Matt Krueger will be CLC's primary contact with MN Department of Health/Local Department of Health regarding COVID-19 reports, and Joy Larson will be CLC's secondary contact.

In addition, a policy has been implemented to protect the privacy of workers’ health status and health information. HR will maintain health information in a confidential medical file within the personnel file.

**Handwashing**

Basic infection prevention measures are being implemented at our campus(es) at all times. Employees and students are being instructed to wash their hands for at least 20 seconds with soap and water frequently throughout the day, but especially at the beginning and end of their time on campus, prior to
any mealtimes and after using the toilet. All visitors to campus facilities will be required to wash their hands prior to or immediately upon entering the facility. All work and classroom places have hand-sanitizer dispensers in each restroom and hand sanitizer is available through office services for anyone wishing to have it. (Sanitizers must be of greater than 60% alcohol). CLC has posted Handwashing posters, from reliable sources such as the CDC, MDH, etc. around CLC campuses in a variety of locations. Additionally, CLC continues to communicate good hygiene practices in emails, on the CLC web-site, and in communications with employees and students.

**Respiratory etiquette: Cover your cough or sneeze**

Employees and visitors are being instructed to cover their mouth and nose with their sleeve or a tissue when coughing or sneezing and to avoid touching their face, in particular their mouth, nose and eyes, with their hands. They should dispose of tissues in the trash and wash or sanitize their hands immediately afterward. Respiratory etiquette will be demonstrated on posters and supported by making tissues and trash receptacles available in work and classroom places. CLC has posted Respiratory etiquette posters, from reliable sources such as the CDC, MDH, etc. around CLC campuses in a variety of locations. Additionally, CLC continues to communicate good hygiene practices in emails, on the CLC web-site, and in communications with employees and students.

Masks or cloth face coverings can be worn to help control infection from people who may be infected but are asymptomatic. Employees and students are encouraged to wear a mask or cloth face covering to prevent the spread of COVID-19.

Here are a few important things to keep in mind:

- Masks or cloth face coverings can help with preventing you from infecting others – especially in situations where you may spread the virus without symptoms.

- Wearing a mask or cloth face coverings does not protect you from others who may spread the virus. So, whether or not you wear a mask or cloth face coverings, you still need to wash your hands frequently, cover your cough, and practice social distancing by keeping at least 6 feet of space between people.

- People who are sick should still stay home. Wearing a mask or cloth face coverings does not mean people who are sick should go out into the community. If you are sick and need to go to the doctor, call your health care provider before going in and wear a mask or cloth face coverings to the clinic.

- **Do not buy or wear surgical or N95 masks.** These supplies are in high need in health care facilities to protect health care workers.
A mask of cloth face coverings should not be placed on young children under age 2, anyone who has trouble breathing, or is unconscious, incapacitated or otherwise unable to remove the mask or cloth face coverings without assistance.

Social distancing

Social distancing is being implemented on campuses through the following engineering and administrative controls:

1. Employees that can work remotely should continue to do so.
2. Employees shall be offered flexible work hours, staggered shifts, and additional shifts to reduce the number of employees in the workplace at one time.
3. If required to come to the campus, consider the necessity of the visit, an appropriate time of that visit so as to limit the number of employees and students on campus at the same time.
4. Employees and students are asked to maintain six feet of distance between colleagues and visitors at all times.
5. Be aware of and avoid crowded spaces including break or lunchroom, elevators, and restrooms.
6. Vehicles will only be signed out to single occupants and cleaned and disinfected after use.
7. Meetings or gatherings of greater than 10 should be done virtually and in-person meetings should be extremely limited.
8. Cloth face coverings are recommended for spaces where social distancing cannot be maintained.
9. CLC provided cloth masks to all CLC employees, and to students in academic programs that are returning for limited face to face instruction. CLC has distributed written CDC guidance with regard to the use and cleaning of the cloth masks. In addition, CLC academic programs created return-to-instruction plans, specifying PPE requirements and cleaning/disinfecting supplies. Academic Affairs and Safety/Security and Facilities staff have reviewed all plans, and provided the required PPE and cleaning/disinfecting supplies, following guidance from CDC, MDH and the Minnesota State System Office.
10. CLC academic programs created return-to-instruction plans, specifying social distancing, physical workplace changes, class rotations, etc. Academic Affairs, Technology and Safety/Security and Facilities staff have reviewed all plans, and have assisted with the plans for social distancing (i.e. removing computer stations/seating). CLC has limited the number of restrooms that are open, and will place signage limiting the number of people in restrooms, and reminding of appropriate social distancing requirements. CLC has placed plexiglass barriers at the CLC Welcome Centers, Bookstores, Testing Centers/Libraries and will continue to evaluate additional needs. CLC is reviewing classroom, shop and lab sizes for appropriate numbers of students, with the social distancing guidelines from CDC, MDH and Minnesota
State. CLC will also evaluate commons spaces (i.e. Cafeteria, Library, Computer Commons) to determine appropriate capacities, considering social distancing guidelines.

11. CLC’s employees are teleworking to the extent possible. There are very limited in-person services with students and the public, with the majority of student and public support occurring remotely (i.e. email, chat, telephone). Social distancing signage and barriers are placed at specific office locations (i.e. Welcome Center, Computer Commons, Testing Center) for the health and safety of employees and students.

12. CLC employees that have concerns can talk directly with their supervisor or Human Resources. Students that have concerns can talk directly with their faculty, Counseling, or can follow the Student Concern process. CLC has provided information relative to mental health support for students and employees via email, web-site and also through social media.

Staff and visitors are prohibited from gathering in groups and confined areas, including elevators, restrooms, and from using other workers’ personal protective equipment, phones, computer equipment, desks, cubicles, workstations, offices or other personal work tools and equipment.

**Housekeeping**

Regular housekeeping practices are being implemented, including routine cleaning and disinfecting of work surfaces, equipment, tools and machinery, vehicles and areas in the campus environment, including classrooms, labs, restrooms, common areas, break rooms, lunch rooms, meeting rooms, and drop-off and pick-up locations. Frequent cleaning and disinfecting will be conducted in high-touch areas, such as common phones, keyboards, touch screens, controls, door handles, elevator panels, railings, printers and copy machines, credit card readers, delivery equipment, etc. Employees are asked to contribute to this effort in their own workspaces. Cleaning supplies have been distributed and are available by contacting Facilities and Maintenance.

GMW and Facilities staff are cleaning the CLC buildings on a daily basis, including additional cleaning/disinfecting of restrooms, commons areas, door handles, and other frequently used areas of the building. Additional cleaning/disinfecting supplies have been provided to academic programs, common areas, and departments upon request. CLC uses cleaning products and protocols following the standards/recommendations provided through the Minnesota State Facilities Division. Academic programs that have filed return-to-instruction plans have been provided cleaning/disinfecting supplies, as well as written guidance discussing shared user and custodial responsibility for cleaning and safety protocols. CLC will follow CDC and MDH guidance regarding disinfecting the workplace if an employee or student is diagnosed with Covid-19. Additional hand sanitizing stations and Clorox wipes have been placed at key locations around college buildings.
Communications and training

This plan was communicated by posting on SharePoint for CLC employees, and reviewing it with Employee Bargaining Unit Leads on Wednesday, May 13, 2020. We are in the process of scheduling a student conversation with Student Leadership. All employees have access to SharePoint, and the plan will also be discussed at Town Hall Forums, Bargaining Unit and Department meetings during the month of May 2020, or as requested. Necessary training on protocols will be conducted by members of the Pandemic Team, or supervisors as appropriate. Additional communication and training will be ongoing via Town Hall Forums and will be provided to all employees and students who did not receive the initial training upon request. Leaders and supervisors are to monitor how effective the program has been implemented by discussion at Operations Council, Deans/Directors and/or Cabinet meetings. Employees and students are to work through this new program together and update the communication strategies and training as necessary.

This plan has been certified by Central Lakes College leadership and was shared and posted throughout the campus community on Wednesday, May 13, 2020. It will be updated as necessary.
