## ABOUT OSP

The Occupational Skills Program (OSP) is a nine-month, technical college diploma program designed for individuals with mild to moderate disabilities, focusing on competitive entry-level employment. OSP is geared toward individuals who can possess the ability to work competitive entry-level employment with training and support, but may find it difficult to meet the rigor of a traditional college program.

OSP offers work experiences, as well as coursework, to support independence in the workplace and in the community. Students also participate in a number of exciting and educational off-campus experiences designed to promote community access, social skills, recreation and healthy living.
